

**OIL AND GAS ENGINEERING ACADEMY
PRELIMINARY TRAINING SCHEDULE
2021***

No.	Course Title	Duration, days/ hours	Price for 1 person, VAT free, RUB	Date
1. Offshore oil and gas engineering				
1.	Offshore oil and gas facilities (agenda)	5/40	60 000	November, 29 – December, 3
2.	Drilling and workover, offshore Russia	3/24	70 000	March, 16-18
3.	Well planning and design, offshore Russia	3/24	70 000	TBD
4.	International standards for casing and tubing design, offshore and onshore	5/40	80 000	Q IV
5.	Offshore drilling	5/40	60 000	October
6.	Offshore developments	5/40	60 000	June, 21-25
7.	Environmental documentation for offshore projects	5/40	65 000	January, 25-29
2. Geology and Petrophysics				
8.	Basic well log interpretation (agenda)	5/40	50 000	March, 15-19
9.	Advanced well log interpretation (agenda)	5/40	50 000	October, 18-22
10.	Production logging and well monitoring	5/40	65 000	Q III
11.	Well logging for reservoir management	5/40	55 000	TBD
12.	Basic geological modeling (agenda)	5/40	50 000	July, 26-30

* SUBJECT TO CHANGE

* Mode of study: face-to-face, e-learning, combined

No.	Course Title	Duration, days/ hours	Price for 1 person, VAT free, RUB	Date
13.	Advanced geological modeling (agenda)	5/40	50 000	October, 18-22
14.	Reef complexes (agenda)	4/32	65 000	July, 26-29
15.	Petroleum system modeling for sedimentary basins (agenda)	5/40	75 000	TBD
16.	Reservoir fluid sampling and PVT analysis (agenda)	5/40	60 000	September, 13-17
17.	Applied well test design and analysis (oil) (agenda)	5/40	55 000	June, 19-23
18.	Advanced well test design and analysis (oil) (agenda)	5/40	55 000	September, 20-24
19.	Applied well test design and analysis (gas)	5/40	55 000	September, 6-10
20.	Advanced well test design and analysis (gas)	5/40	55 000	October, 18-22
21.	Gas condensate study (agenda)	4/32	50 000	October, 11-14
22.	Modern technics of well testing	5/40	65 000	November
23.	Sedimentology: lithofacies and formation analysis (agenda)	5/40	55 000	November, 8-12
24.	Rock physics and geophysics in petroleum geology	5/40	55 000	Q IV
25.	Carbonate basin: genesis, secondary alteration, study methods	5/40	65 000	Q III
26.	Modern geophysical study technics	5/40	50 000	Q IV
27.	Fundamentals of HCS modeling (agenda)	3/24	45 000	Q II
28.	Seismic interpretation, integration with Rock Physics data	5/40	50 000	September, 27 – October, 1
29.	Modern Rock Physics technics: improving of seismic data interpretation	5/40	50 000	December, 13-17
30.	Improving reserves estimation accuracy	5/40	50 000	April, 12-16 Q IV
31.	Neural networks for geological easement development	5/40	60 000	July, 12-16
3. Reservoir engineering and waterflooding				
32.	Basic reservoir simulation: modern approaches to design, application and assessment (agenda)	5/40	85 000	Q III

No.	Course Title	Duration, days/ hours	Price for 1 person, VAT free, RUB	Date
33.	Advanced reservoir simulation: modern approaches to design, application and assessment	5/40	85 000	March, 22-26
34.	Reservoir simulation: modern approaches to design, application and assessment (expert level)	5/40	110 000	November
35.	Reservoir simulation: practical aspects (agenda)	5/40	50 000	September, 13-17
36.	Multidisciplinary approach to reservoir simulation (agenda)	5/40	60 000	August, 23-27
37.	Model control: part 1 - geological modeling	5/40	65 000	October, 4-8
38.	Model control: part 1 - reservoir modeling	5/40	65 000	October, 4-8
39.	Effective Reservoir Management (agenda)	5/40	50 000	June, 15-17
40.	Waterflood management: productivity decline and EOR (agenda)	5/40	300 000	TBD
41.	Basic waterflooding: physics, technologies, field cases (agenda)	5/40	300 000	TBD
42.	Advanced waterflooding: physics, technologies, field cases (agenda)	5/40	300 000	TBD
43.	Formation Damage and Productivity Enhancement in Oil & Gas Reservoirs (agenda)	5/40	300 000	TBD
44.	Well injectivity: prediction, damage prevention, stimulation (agenda)	5/40	300 000	TBD
45.	Improved cost-effective waterflooding and EOR (agenda)	5/40	300 000	TBD
46.	Oil and gas production for non-specialists	3/24	45 000	September, 20-22
47.	Geomechanical modeling	5/40	50 000	September, 20-24
48.	Development of gas fields	3/24	65 000	Q IV

No.	Course Title	Duration, days/ hours	Price for 1 person, VAT free, RUB	Date
49.	Developing oil fields with massive gas caps	3/24	65 000	Q IV
50.	Rock Physics for effective reservoir physical properties modeling (agenda)	3/24	50 000	April, 19-21
51.	Oil & gas traps, reservoir simulation	5/40	50 000	TBD
52.	Machine Learning and Data Science for Upstream Professionals	5/40	150 000	October, 25-29
53.	Smart field: from tools to optimization	5/40	65 000	September, 6-10
4. Production technology				
54.	Flow assurance in heavy oil production (agenda)	5/40	50 000	October
55.	Horizontal wells: applicability, construction, completion, productivity & flow rate measurement (agenda)	4/32	75 000	Q III
56.	Completion and workover supervising, onshore and offshore	5/40	80 000	Q III
57.	Completion design, onshore and offshore	5/40	80 000	Q IV
58.	Modern oil production technology. Oil and gas facilities fundamentals (agenda)	5/40	50 000	August, 30 – September, 3
59.	Physical and chemical analysis of rocks and fluids	3/40	40 000	Q III
60.	Horizontal and multilaterall wells. Well completion. Smart wells (agenda)	5/40	65 000	May, 31 – June, 4, December, 6-10
61.	Unconventional hydrocarbons	5/40	65 000	Q III
62.	Artificial lift	5/40	65 000	May, 24-28, November
63.	Corosion management principles	5/40	50 000	December, 6-10

No.	Course Title	Duration, days/ hours	Price for 1 person, VAT free, RUB	Date
64.	Complication control (scale, asphaltene deposits, corrosion)	5/40	50 000	Q III - IV
65.	Modern well completion and workover techniques: horizontal and multilateral wells. Rigless-techniques	5/40	55 000	September, 27 – October, 1
5. Enhanced recovery				
66.	Enhanced oil recovery: geological and technological aspects (agenda)	5/40	50 000	August, 16-20
67.	Modern EOR technics (agenda)	5/40	50 000	August, 16-20
68.	Hydraulic fracturing design and control	5/40	65 000	December, 6-9
69.	Petroleum geochemistry (agenda)	4/32	40 000	December, 6-9
70.	Production performance support at different stages of field development	3/24	40 000	September, 29 – October, 1
6. HSE				
71.	Dropped objects prevention system at drilling and downhole facilities (agenda)	3/24	40 000	November, 22-24
72.	Environmental targets and protection for oil and gas field	3/24	40 000	Q IV
73.	Ecological damage prevention: offshore and coastal oil spill disasters (agenda)	3/24	40 000	May, 17-19
74.	Ecological damage prevention and countermeasure: oil spill disasters (agenda)	4/32	50 000	May, 24-27
7. Drilling				
75.	Deviated well construction (agenda)	4/32	75 000	October, 11-14
76.	Drilling supervising, onshore and offshore	3/24	70 000	October
77.	Drilling Fluid Engineering (agenda)	5/40	50 000	November, 22-26
78.	Flushing fluids mixing and application	5/40	50 000	April, 19-23
79.	MWD of horizontal and directional wells (agenda)	4/32	50 000	May, 4-7
80.	Geo-steering and M/LWD (agenda)	5/40	55 000	March, 22-26, November, 1-5

No.	Course Title	Duration, days/ hours	Price for 1 person, VAT free, RUB	Date
81.	Well Planning: process design for directional and horizontal wells drilling	5/40	50 000	April, 12-16, December
82.	Risk management in well construction	5/40	50 000	TBD
8. Business development. Personal growth				
83.	Effective communication: maximum communication tactics (training)	3/24	25 000	June, 14-16, November, 1-3
84.	Stress management: individual action plan	3/24	25 000	June, 17-19, November, 4-6
85.	Personal effectiveness: planning and self-motivation (training)	3/24	25 000	June, 21-23, November, 8-10
86.	Modern manager: advanced leadership and coaching	3/24	30 000	June, 24-26, November, 11-13
87.	Basic Excel practical training for oil and gas professionals	5/40	40 000	Q III
88.	Advanced Excel practical training for oil and gas professionals	5/40	40 000	Q III
89.	Team building and development: effective management of group processes	5/40	40 000	Q III-IV
90.	Successful international cooperation: features of business communication with foreign partners	5/40	40 000	Q III-IV
91.	Effective communication and personal growth (based on Schultz von Thun and Riemann-Tomanna models)	5/40	40 000	Q III-IV
92.	Basic Petroleum English (agenda)	5/40	40 000	April, 26-30; August 2-6
93.	Advanced Petroleum English (agenda)	5/40	40 000	August, 9-13; October, 4-8
94.	Basic Petroleum English for management (agenda)	5/40	40 000	August, 16-20, November, 1-5
95.	Advanced Petroleum English for management (agenda)	5/40	40 000	August, 23-27, November, 15-19

No.	Course Title	Duration, days/ hours	Price for 1 person, VAT free, RUB	Date
96.	MICROSOFT EXCEL: Visual Basic for Applications	5/40	40 000	April, 5-9, October, 11-15
97.	Advanced MICROSOFT EXCEL	5/40	40 000	May, 31 – June, 4, July, 12-16
98.	MICROSOFT EXCEL: enhanced options	5/40	40 000	April, 19-23, August, 23-27
9. Economy, management and consulting				
99.	Advanced strategic analysis (agenda)	2/16	105 000	October, 11-12
100.	Strategic management in oil and gas business. Theory & practice (agenda)	2/16	105 000	October, 13-14
101.	Advanced sales management (agenda)	2/16	140 000	October, 15-16
102.	Business assessment and decision making	5/40	50 000	July, 19-23
103.	Internal procurement for petroleum sector: optimization technics	3/24	25 000	March, 15-17, September
104.	Production management. H&R management	5/40	50 000	July, 5-9
105.	Project management: standards and technologies	5/40	50 000	March, 1-5
106.	Budget as a business planning tool	3/24	35 000	April, 28-30, December, 2-4

* If you could not find any course, it does not mean we do not have it. It can be out of schedule. We have solutions for all our students.

** If you want to study with your colleagues, and have a group of more than five people, we are ready to change the date and course program according to your needs.
